

Connecting to Datasets

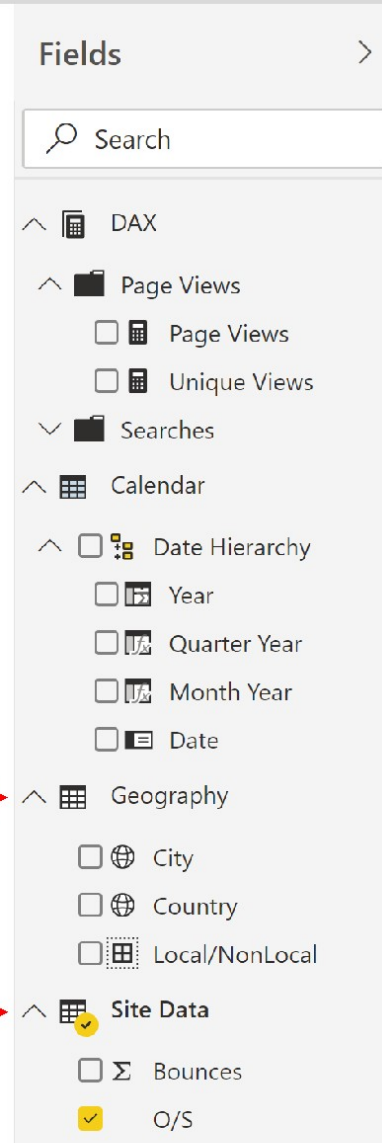

- Queries to extract data are created by “Getting Data” from new or recent data sources

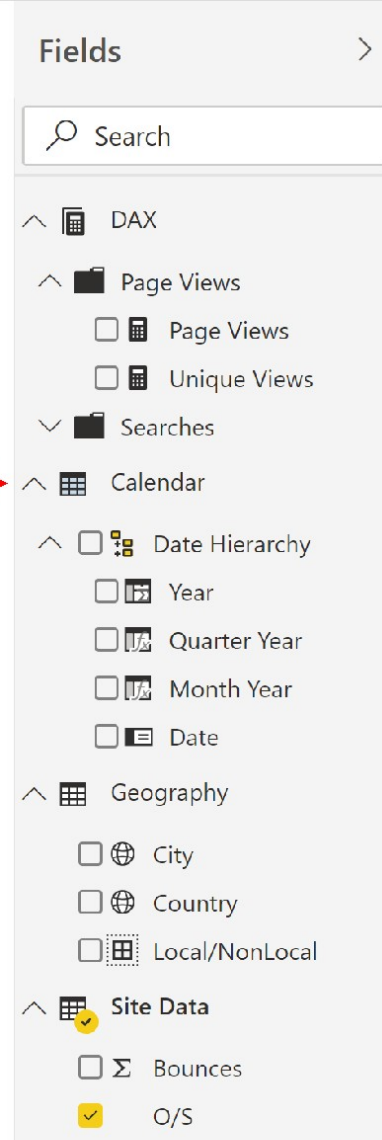

Understanding the Fields Pane

- The **Fields pane** displays the *tables, folders, and fields* in your model that are available for *creating visualizations*
- *Icons and symbols* are used to indicate *field types*:
 - Table

Understanding the Fields Pane

- The **Fields pane** displays the *tables, folders, and fields* in your model that are available for *creating visualizations*
- *Icons and symbols* are used to indicate *field types*:
 - Table
 - DAX Calculated Table

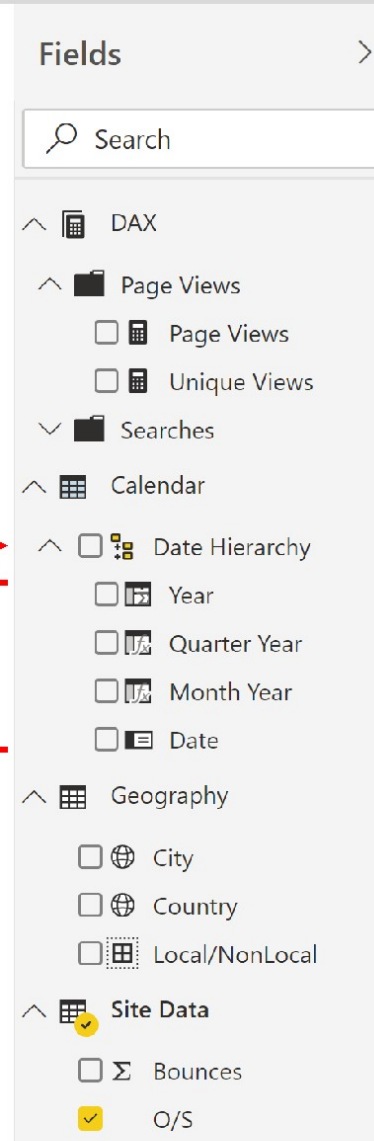

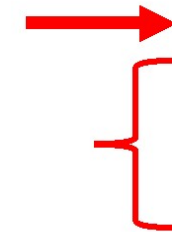

Understanding the Fields Pane

- The **Fields pane** displays the *tables, folders, and fields* in your model that are available for *creating visualizations*
- *Icons and symbols* are used to indicate *field types*:
