

Appending Tables in the Current Workbook

© Skillwave Training

1

Append Data in the Current Workbook

Method:

Start with Blank Query

In the formula bar, type: `=Excel.CurrentWorkbook()`

Filter to the object(s) you want to keep

Expand the [Content] column

Provides links to:

Workbook Part	Name
Table	Table's name
Named/Dynamic Ranges	Range's name

Don't forget to filter out the newly created table!
